TalkMarkets sees impressive interest and receives high valued accolades at IMPACT Capital Conference 2016

*CEO Boaz Berkowitz, impresses investors in a highly riveting presentation demonstrating
TalkMarkets revolutionary contributor equity model.*

Highland Park, New Jersey - December 12, 2016

Upon being invited to attend and to present as a Featured Start-up at the IMPACT Capital Conference in Philadelphia, TalkMarkets CEO Boaz Berkowitz arrived with his team and immediately took the opportunity to meet with potential investors.

Mr. Berkowitz gave an outstanding presentation demonstrating the company's unique contributor model and personalized financial social space.

He stressed that, "TalkMarkets provides a niche site for all types of investors, from novice to sophisticated. We have made investing more interactive, informative and exciting by integrating the best social tools on the web and adding a few of our own. Contributors are unhappy with the status quo and have been seeking alternatives. TalkMarkets has taken the platform/contributor model to the next level."

TalkMarkets received great interest and feedback from angel networks, top venture capitalists and Goldman Sachs.

"Selected to be a Featured Start-up provided us a great opportunity to get more exposure among potential investors. This was our first IMPACT event and we look forward to the next," said TalkMarkets CEO, Boaz Berkowitz.

###

TalkMarkets, www.talkmarkets.com, covers the breadth of the financial industry with customized content from leading experts, utilizing innovative tools for an interactive discussion on investing. Content is customized to users' interests, preferences and level of investment sophistication. Launched in 2014, it provides users with a unique, personally relevant, social experience in the financial space.
