Proud PACT Sponsor
Awarded 2018 Enterprise Technology Company of the Year

Boomi.com
Welcome to the 26th Annual Enterprise Awards!

Our region is on the rise — we have amazing entrepreneurs and companies in technology and healthcare doing breakthrough work on a daily basis and they deserve recognition and celebration. PACT honors all of the 2019 finalists selected from a record pool of nominees driven by continued, impressive growth in our region’s entrepreneurial activity and business success. And, tonight, we recognize Howard Ross as the Legend Award recipient and SEI for excellence in Digital Innovation.

Howard Ross is the Co-Founder and Partner of LLR Partners, a leading private equity firm with over $3.5 billion in assets under management. In Howard’s first career he served as the partner-in-charge of Arthur Andersen’s Growth Company Practice in the Greater Philadelphia region. He advised several hundred startups during his tenure and left an indelible mark on Philadelphia’s entrepreneurial community with a trail of successes he helped to guide. For his second act, Howard co-led the creation and growth of LLR, a highly successful private equity firm where Howard provided that same expert advice along with capital to the next generation of high growth entrepreneurs, many in this region. He has done this all while avoiding the limelight and deflecting recognition to the entrepreneurs he has backed and advised.

From humble beginnings at the Wharton School in 1968, Al West launched SEI on the University City Science Center campus. SEI has grown into a leading provider of next-generation investment infrastructure platforms, solutions and services for the wealth management industry. In the 1970s SEI was automating investment management processes long before most workers used computers. Today, the company is integrating blockchain, artificial intelligence and a host of cutting edge-technologies into its growing product set to redefine wealth management solutions. Most 50 year old companies struggle to compete with the latest innovations — SEI is leading the charge!

Finally, I thank all of our sponsors for their commitment to growing and strengthening entrepreneurship in our region and their generous support. Because of them, we are able to celebrate the achievements of finalists, honorees, and winners in our signature grand style!

Dean Miller, PACT President & CEO
Tridiuum is honored to be a Healthcare Emerging Company Enterprise Award Finalist

A pioneering digital health company, Tridiuum delivers solutions for integrating behavioral health across the care continuum for improved outcomes, lower costs, and a better patient experience.

That’s total health value.

We are proud supporters of PACT and congratulate all of the 2019 finalists!

Digital Innovation

**CRITERIA:** A technology leader or group within a company who has implemented technology in a unique or innovative way that has transformed business processes, products and/or services that drove a fundamental change on how value is created within the company.

**KEY CONSIDERATIONS:** Must demonstrate success in applying and/or integrating new or next-generation technology (e.g., mobile, business intelligence, process automation) in a unique or innovative application. This can include an invention or early adoption of next-generation technology either for internal utilization or commercial application. Must demonstrate key components and important contributions that the information technology has made to the organization, its industry or the community it serves.

Healthcare Startup

**CRITERIA:** Company with operating results of three years or less.

**KEY CONSIDERATION:** Product innovation, including market need/assessment and potential for significant growth; management team and its ability and record of achieving success; demonstration of success (e.g., significant milestones, raising capital, revenue, etc.); R&D investment strategy; demonstrated ability to overcome challenges in financing, development or commercialization.

Technology Startup

**CRITERIA:** Company must have operating results of three years or less.

**KEY CONSIDERATION:** Product or service innovation, including market need or assessment and potential for significant growth; the management team and its ability and record of achieving success; and a demonstration of success, such as significant milestones, raising capital and revenue.

Investment Deal

**CRITERIA:** Companies demonstrating significant exit transactions, capital-raising transactions, merger and acquisition transactions (buy-side or sell-side), new business development agreements and new strategic alliance agreements.

**KEY CONSIDERATION:** History of deal, financial breakdown/deal mechanics, value to sponsor’s shareholders and/or commercial strategy, innovation and contribution to market development.
Congratulations to all of the finalists of the 26th Annual Enterprise Awards

Healthcare Emerging

CRITERIA: Company with more than three years of operating results with demonstrated sales, grants or licensing fees.

KEY CONSIDERATIONS: A product, including proprietary applications or other advantage, with a significant impact on solving a clinical problem, such as saving a hospital money on a procedure or making a clinician more productive; the strength of management team, including ability to raise capital; and profitability or demonstrated ability to achieve profitability (e.g., strategy to achieve break even, ability to realize high gross margins) or decisions that led to corporate collaborations or license deals.

Technology Emerging

CRITERIA: Company must have at least four years of operating results. Revenues must be less than $50 million, except in the most recent fiscal year.

KEY CONSIDERATIONS: Product or service innovation, including proprietary technology or other advantage; company milestones, including strategic decisions made by management that led to growth in revenues and/or earnings; strength of management team, including ability to raise capital; and profitability or demonstrated ability to achieve profitability, such as strategy to achieve break even and the ability to realize high-gross margins.

Healthcare CEO

CRITERIA: Individual’s background and his or her company’s success to date.

KEY CONSIDERATIONS: CEO’s management accomplishments and philosophy, including the communication of a vision and goals as achieved by the company; leadership and impact in industry and/or market; ability to attract and retain talented resources; company milestones, including financial accomplishments and a strategy for continued company success; and community and industry involvement.

Technology CEO

CRITERIA: Individual’s background and his or her company’s success to date.

KEY CONSIDERATIONS: CEO’s management accomplishments and philosophy, including the communication of a vision and goals as achieved by the company; leadership and impact in the industry and/or market; ability to attract and retain talented resources; company milestones, including financial accomplishments and a strategy for continued company success; and community and industry involvement.
Congratulations to Howard Ross, 2019 Enterprise Legend Award for Lifetime Achievement recipient.

Tabula Rasa HealthCare (TRHC) recognizes Howard Ross in appreciation for his fervent support and insightful guidance that enabled our exceptional growth and successful exit of excelleRx. Our sincere congratulations to Howard for this well-deserved, prestigious and meaningful honor. You are a legend.
Healthcare Innovator

**CRITERIA:** A company, researcher, investor or individual providing an innovative solution that has the potential to make a large and positive impact on cost, quality and/or access in healthcare.

**KEY CONSIDERATIONS:** A demonstrated business model for the solution and its ability to generate rapid growth. Demonstrate return on investment or clinical impact of the solution. Must demonstrate creativity and passion to re-thinking healthcare in the region and to driving exceptional health outcomes or dramatically lowering costs.

Technology Company

**CRITERIA:** Company with more than $50 million in revenues in the most recently completed fiscal year.

**KEY CONSIDERATIONS:** Leadership and product and/or service innovation in an industry or market; significant company milestones, including financial accomplishments; and community and industry involvement.

Legend for Lifetime Achievement

The Legend Award for Lifetime Achievement is presented to an individual who has advanced technology and sciences in the region through leadership and exemplary work. The Legend recipient must have a strong connection to the community, a history of personal accomplishments and a track record of success.

Helping our clients bring to life what’s next.

Capgemini invent
SEI

SEI is a leading global provider of outsourced asset management, investment processing, and investment operations solutions that help corporations, financial institutions, financial advisors and affluent families create and manage wealth.

SEI Trade is a web-based solution that digitizes and streamlines the end-to-end processing of investor transactions and onboarding, while facilitating the review, approval, tracking and delivery of subscription documentation and investor data:

- Transforms any form into digital, guided, wizard-based experience.
- APIs automate the pre-fill of forms from existing data sources.
- Configurable conditions/business rules validate data and ensure that processes are completed in good order with messaging and alerts to assist end users.
- Customizable workflows can be designed to digitize the entire business process with various review assignments and data integration points to allow for straight-through processing.
As a proud supporter of PACT, Bridge Bank would like to congratulate all of the Enterprise Award nominees.

We believe in the risk takers, the game-changers and the disrupters – those committed to leveraging innovation to make the world a better place. Bridge Bank offers solutions for both founders and funds, including:

- Lines of credit for capital calls, SBIC funds and management company flexibility loans
- Term loans for venture debt and other credit facilities for VC backed companies
- Treasury management and international banking services

Bainbridge Health

Bainbridge Health—a spin-out company of The Children’s Hospital of Philadelphia—is on a mission to enhance safety for patients and reduce costs for hospitals by mitigating the risk of medication errors. Bainbridge Health’s proprietary Med O.S.™ technology is a vendor-agnostic Medication Safety Software Platform now in use at both adult and pediatric systems across the country. It serves as an integral component of these systems’ safety and risk management strategies by helping to limit their risk of avoidable medication errors and subsequent costs in an era of changing payer mixes and reimbursement models.

Praeventix

Praeventix is a biopharmaceutical company focusing on the discovery, development and marketing of novel signal transduction modulating agents for the treatment of Inflammatory Bowel Disease (IBD), Ulcerative Colitis (UC) and Crohn’s Disease (CD).

Tmunity Therapeutics

Tmunity Therapeutics is a private biotherapeutics company focused on saving and improving lives by delivering the full potential of next-generation T cell immunotherapy to more patients with devastating diseases. Integrating broad collaborations with the University of Pennsylvania (UPenn) and the University of Minnesota with the groundbreaking scientific, clinical and manufacturing expertise and demonstrated track record of its founders, Tmunity is developing personalized immunotherapies for cancer, infectious disease and autoimmune disease that are advancing rapidly toward the clinic.

Augean Robotics

Fully autonomous farming begins with collaborative robots. Augean Robotics is launching a collaborative robotic platform, called Burro, that reduces labor costs for growers of the most labor-intensive crops and paves the way toward the fully autonomous future. Burro follows people, learns the routes and can then rerun them autonomously on its own. Today, Augean Robotics is running paid deployments of Burro with some of the world’s largest growers of specialty crops.

DrayNow

DrayNow is the first real-time Intermodal marketplace, transforming the way freight connects with available Intermodal carriers. The DrayNow Marketplace is accessed by Third-Party Logistics (3PLs), Intermodal Marketing Companies (IMCs), and brokers through a desktop interface where users can view truck capacity in real time, post loads, track load status and obtain electronic documents immediately. With DrayNow’s mobile application, truck drivers can get turnkey access to Intermodal freight, browse loads, compare rates and details, select loads, deliver loads and get paid faster.

NeuroFlow

80% of patients that have a behavioral health diagnosis are seen by a primary care provider but never see a behavioral health specialist. 50% of patients that are referred to a specialist never go to their first appointment. NeuroFlow is looking to change this by using AI and machine learning to nudge positive behavior change. NeuroFlow’s digital health platforms promote behavioral healthcare access and engagement in all care settings to improve cost of care, overall wellness and outcomes.
Vanguard commends our local leaders

We are proud to support PACT and the Annual Enterprise Awards. Congratulations to all of the nominees.
Remembering Fred Beste and Jack Bogle

for their contributions to and impact on the financial and entrepreneurial communities of Philadelphia and beyond

Fred J. Beste III

Fred spent his entire career in the venture capital industry, beginning with Greater Washington Investors, Inc., a publicly held venture capital firm, where he was Vice President and Treasurer, in Washington, D.C. He joined Mid-Atlantic Venture Funds in Bethlehem, PA, in 1984 as the founding President and Chief Executive Officer of its total of five early stage venture funds. Since 2008, he also served as Partner Emeritus/ shareholder of the general partner of Originate Ventures, a Bethlehem-based venture fund targeted at investing in early stage technology companies, primarily in Pennsylvania.

Jack C. Bogle

Mr. Bogle had legendary status in the American investment community, largely because of two towering achievements: He introduced the first index mutual fund for investors and, in the face of skeptics, stood behind the concept until it gained widespread acceptance; and he drove down costs across the mutual fund industry by ceaselessly campaigning in the interests of investors. Vanguard, the company he founded to embody his philosophy, is now one of the largest investment management firms in the world.

**Essential Medical/Teleflex**

Essential Medical, Inc., a privately held medical device company, developed and commercialized the CE Marked MANTA™ Vascular Closure Device. Complex vascular procedures such as aortic valve replacement and aortic aneurysm repair are moving toward minimally invasive approaches, but traditional approaches to vascular closure often cause complications. While physician adoption of the MANTA Device in international markets has been impressive, with over 8,000 procedures completed, Essential Medical felt an outside partner with established sales and marketing channels was needed. Teleflex’s strong presence in the interventional cardiology market made it an ideal partner. Essential Medical was acquired by Teleflex Incorporated in October 2018.

**LiquidHub/Capgemini**

LiquidHub was a customer engagement company that partnered with businesses to improve customer experience and drive growth. Founded in 2001, LiquidHub expanded from a local IT company to a global customer engagement agency. From 2011 to 2016, the company quadrupled in size, acquiring multiple companies with expertise in analytics, digital marketing, industrial and digital design, cognitive science and cloud services. In February 2018, Capgemini, a global leader in consulting and technology, acquired LiquidHub for $496 million. Through the acquisition, Capgemini reinforced its digital consulting capabilities and accelerated its portfolio shift in North America.

**Velicept Therapeutics**

Velicept is a clinical-stage development company founded in 2015 to develop solabegron, a highly differentiated next-generation beta-3 agonist for the treatment of overactive bladder (OAB). A strong IP estate protects both the molecule and the formulation through 2036. Solabegron has the potential to disrupt the $4 billion OAB market as a next-generation agent offering improved relief of symptoms. In 2018, Velicept raised approximately $23.5 million of equity and closed a $15 million debt facility. The capital is being used to fund two large Phase 2 dose ranging studies and ongoing Phase 3 work.
First Round Capital congratulates

Howard Ross

on his well deserved recognition as the

2019 Legend Award for Lifetime Achievement
Congratulations on this terrific award.

You have accomplished so much at so many levels, and we are all the grateful beneficiaries of your great work.

– Richard Vague –
Game-changing ventures. Future-forward speed.

Driving a new vision forward today requires moving faster than ever before. You need to see things from a different perspective, then unleash your passion to make your ideas take flight. That’s the type of vision—and visionaries—we celebrate tonight.

KPMG is proud to continue to serve as the judging sponsor for the annual Enterprise Awards. We salute tonight’s winners, who represent technology and healthcare, business legends and leaders in digital innovation and investment. Thank you for inspiring us all to reach new heights of performance.

KPMG’s Venture Capital practice can help accelerate your journey by providing insight and experience throughout the business life cycle. We’ll help you navigate diverse regulatory, compliance and finance requirements so you can focus on outpacing the competition.

Joseph H. Capper, *BioTelemetry*  
**www.gobio.com**

BioTelemetry, Inc. is the leading remote medical technology company focused on delivery of health information to improve quality of life and reduce cost of care. Joseph Capper has been President and Chief Executive Officer of BioTelemetry since 2010. Previously, Capper served as President, Chief Executive Officer and a member of the board of directors of Home Diagnostics, Inc. (NASDAQ:HDIX), a leading developer, manufacturer and marketer of diabetes management products. From 2002 to 2009, he was President and Chief Executive Officer of CCS Medical Inc., a leading provider of medical supplies in diabetes, wound care, respiratory and other therapeutic categories.

Navneet Puri, PhD, *Nevakar*  
**www.nevakar.com**

Nevakar is a fully integrated specialty pharmaceutical company, focused on developing innovative ophthalmic and injectable products. Nevakar’s business model is built around drug repositioning and repurposing. Nevakar was founded in 2015 by Dr. Navneet Puri, a successful scientist and entrepreneur. His vision is to establish a sustainable and scalable novel product differentiation approach targeted to address unmet clinical and commercial needs for established molecules. Dr. Puri remains deeply engaged in portfolio strategy and selection and played a major role in a series of fundraises for the company (a total of $120M in three years).

Mel Sorensen, MD, *Galera Therapeutics*  
**www.galeratx.com**

Galera Therapeutics, Inc. is a privately held, clinical-stage biotechnology company focused on discovering and developing novel therapeutics targeting oxygen metabolic pathways with the potential to transform how radiation therapy is used in patients with cancer. Dr. J. Mel Sorensen took the helm of Galera upon its founding in 2012. His experiences as a physician, a researcher and in clinical development have helped him lead a small, research-focused company. His previous experience with raising over $300 million in private financing rounds and licensing deals paved the way for Galera’s own successful fundraises ($11 million, $57 million and $150 million).

Since Dell acquired Boomi in November 2010, Dell Boomi has become the fastest-growing acquisition in Dell’s history, helping businesses address their most daunting integration challenges. Chris McNabb is CEO of Dell Boomi, responsible for all operations and strategic direction. Under Chris’ leadership, Dell Boomi met an aggressive and impressive five-year revenue goal in only three years. Dell Boomi has grown from 4,800 to more than 7,500 customers, and the number of employees has increased from 500 to 800+ globally, with expanded operations throughout the EMEA and APJ regions. During this high-growth period, Chris has been fiercely protective of the company’s corporate culture.

Ned Moore, Clutch  
www.clutch.com

Founded in 2012, Clutch has revolutionized how marketing teams for premier brands develop and foster relationships with their customers. Its advanced marketing platform serves as a customer hub, delivering deep intelligence derived from real-time behaviors and transactions across in-store, online, mobile and social channels. Ned Moore is one of the key visionaries behind Clutch, helping identify the tremendous gap in how business-to-consumer (B2C) companies manage and leverage their existing customers. Moore’s management philosophy was shaped by mentors who helped him understand that successfully growing a business depends on attracting the right people and then empowering them to succeed.
CONGRATULATIONS
to the nominees and winners of the

SolomonEdwards
Exceptional People for Complex Situations
LLR Partners is proud to congratulate Howard Ross on his Legend Award for Lifetime Achievement.

For the past 20 years, you have led by example as a true partner to our portfolio companies, our investors and your LLR colleagues. We know Philadelphia will benefit from your extraordinary passion and leadership for the next 20 years and beyond.
The Independence Center for Health Care Innovation is proud to sponsor PACT’s 2019 Enterprise Awards

At Independence, we are focused on innovation. By engaging with our members, group customers, hospitals, physicians, and other business partners, we’re developing solutions that will make the health care experience more convenient, effective, and affordable.

Together, we’re driving health care innovation that puts people first.
EIR Healthcare

EIR Healthcare is a healthcare innovation company focused on bringing efficient industrial practices to the healthcare sector. Its flagship product, MedModular, is a factory-made “hospital room in a box,” pre-fabricated based upon recognized industry best practices and delivered on-site. EIR Healthcare collaborates with each hospital to customize the space for the optimal workflow and patient experience. As the leading innovator of cost-effective, efficient and state-of-the-art healthcare, EIR Healthcare improves quality of care in facilities, allowing for the redistribution of funds from construction to human capital, new research and other core functions. EIR Healthcare is making hospitals more patient-centric and ready for the future.

Micro Interventional Devices

Micro Interventional Devices (MID) is a medical device company that designs, manufactures and commercializes disruptive technologies for use in percutaneous and minimally invasive structural heart repair procedures. Its technology can eliminate the need for open-heart surgery or cardiopulmonary bypass and reduce procedure time and hospital stay and recovery time. While the applications of the technology are expansive, MID focuses on three important unmet needs in structural heart disease: Access and closure, mitral and tricuspid valve repair and mitral valve replacement.

Tandigm Health

Tandigm Health is a population health services organization that partners with over 400 primary care physicians to enhance their ability to provide the finest possible care to the 110,000 patients in its network. By providing meaningful incentives, data and a powerful suite of preventive and chronic care programs, Tandigm Health partners with its physician network to keep patients on a path to health and out of the hospital and ER settings, making healthcare more affordable.
Congratulations to Howard: a true legend and a local hero, a good friend and a man who shall never fall behind.

With much affection

RAF Industries
Bob Fox
Rick Horowitz
Healthcare is hard. We make it simple.

“My Health Assistant is extremely responsive and concerned about my family’s well-being. She understands our benefits and gets us proper service providers and specialists. I don’t know where we would be without her.”

Howard D. Ross
LLR Partners

Howard Ross co-founded LLR Partners in 1999. LLR Partners is a middle market private equity firm committed to creating long-term value by growing its portfolio companies. The firm invests primarily in software, healthcare, education, security and fintech businesses. With more than $3.5 billion raised across five funds, LLR is a flexible provider of capital for growth, recapitalizations and buyouts.

Howard is currently a member of the Board of Directors of Agility Recovery Solutions, Key2Act, Numotion, Rapid Ratings and Rizing. He has also served on the boards of Alsbridge, BrightHeart Veterinary Centers, eResearch Technology, excelleRx, Five Below, Gestalt, InnaPhase, Iron Mountain, Maxwell Systems, Medmark, Pet360, SDI Health, SEI Investments, Singer Equities, Taratec and UltiSat.

Prior to forming LLR, Howard was the partner in charge of Arthur Andersen’s Growth Company Practice in the Greater Philadelphia market. In his 26 years at Arthur Andersen, he built a practice of over 80 people, including five partners, serving over 175 rapidly growing companies.

Howard holds a B.S. in Economics from the Wharton School of the University of Pennsylvania, graduating summa cum laude. Howard and his wife, Susan, live in Bryn Mawr, PA with their two dogs. Their two children, Matt and Rachael, are in their 30s and live in Manhattan and Chapel Hill.
