

APPLICATION

Life Sciences/Healthcare Company of the Year

Criteria: Company must have at least four years of operating results in industry segments such as specialty pharmaceuticals, biotechnology, medical devices/instrumentation, therapeutics, diagnostics, etc.

Key Considerations: Company should demonstrate the impact of a proprietary product to the patient and/or clinician or research and development of an innovative product and its potential impact on the market.

Company should demonstrate its ability to raise capital; generate revenue; and commercialization and/or strategy to enter into substantive strategic alliances.

Company should also demonstrate its development strategy and clinical pathway to development.

Describe any significant events, e.g. product discovery, drug registration, an exit, an increase in sales etc. that occurred in 2021.

What did the company do to overcome challenges in financing, development, or commercialization?

Company Narrative/Summary

There is a limit of 100 words per response.

1. Provide a brief business description.
2. What are your products, services, and/or proprietary technologies, including development status of pipeline assets? What unique benefits do they bring to your customers?
3. What industry problem is the company trying to solve?
4. What is your market potential, and what are your target markets?
5. What is your unique competitive advantage?
6. Describe the depth of experience of your management team.
7. List your company's achievements.
