

APPLICATION

Life Sciences/Healthcare Company of the Year

Criteria:

- Company must have at least four years of operating results in industry segments such as specialty pharmaceuticals, biotechnology, medical devices/instrumentation, therapeutics, diagnostics, health tech, etc.
- Company must have its HQ or significant operations in the region and a significant portion of its leadership, employees, and consultants must be based in the region.

Key Considerations:

- Company should demonstrate the impact of a proprietary product to the patient and/or clinician or research and development of an innovative product and its potential impact on the market.
- Company should demonstrate its ability to raise capital; achieve success in its development strategy and clinical pathway; commercialize and generate revenue
- Describe any significant events, e.g. product discovery, drug registration, commercial launch, an exit, an increase in sales etc. that occurred in 2022.
- What did the company do to overcome challenges in financing, development, or commercialization?

Company Narrative/Summary

There is a limit of 100 words per response.

1. Provide a brief business description.
2. What are your products, services, and/or proprietary technologies, including development status of pipeline assets? What unique benefits do they bring to your customers?
3. What industry problem is the company trying to solve?
4. What is your market potential, and what are your target markets? What is the product market fit?
5. What is your unique competitive advantage? Provide tangible evidence to support claims.
6. Describe the depth of experience of your management team.
7. List your company's achievements. Key milestones and dates.
