

APPLICATION

Technology CEO

A technology company must either provide proprietary technology or intellectual property or services that leverage proprietary technology or IP.

Criteria:

- Individual's background and the company's success to date.
- CEO must be based in the region and their company must have its HQ or significant operations in the region and a significant portion of its leadership, employees, and consultants must be based in the region.
- CEO must be in her/his position for at least 2 years.

Key Considerations:

- CEO's management accomplishments and philosophy, including the communication of a vision and goals as achieved by the company.
- Leadership and impact in industry and/or market.
- Ability to attract and retain talented resources.
- Company milestones including financial accomplishments and a strategy for continued company success.
- Community/industry involvement.
- Extra consideration is given to leaders who have contributed more broadly to the strengthening and promotion of the technology industry in the region.

Company Narrative/Summary

There is a limit of 100 words per response.

1. Provide a brief business description.
2. What are your products, services, and/or proprietary technologies? What unique benefits do they bring to your customers?
3. What is your market potential, and what are your target markets?
4. What is your unique competitive advantage?
5. Describe the depth of experience of your management team.

CEO Profile
